When we want to discuss problems, imagine new ideas and brainstorm solutions, it's best to bring people together. But beware: that alone doesn't automatically guarantee creative outputs and ideas. Too often, a discussion can go unfocused, brainstormed solutions end up scattered and lacking direction, or the session dissolves into a competition of who can assert their ideas louder.

I have always been amazed by psychologists because they spend their time analyzing the psychodynamics in people. As someone who prizes math and chemistry—whose life passion has been based on limits, quantiles and often solutions—I'm fascinated by a different type of doctor: Those who work with emotions. Emotions, after all, are ineffable ...

For many years I have been a collector of quotes. I love how they convey so much in so few words. Since I began leading keynotes and playshops for teachers and child care professionals, I have grown a particular fondness for quotes on child learning and development. Below is a list of my favourites (and I have snuck in a few of my own quotes).

.
