Look at the chain specs. in the manual. For instance my Ryobi is 14 in. x 3/8 pitch x .050 ga. x 52 links. This chain fits my saw fine as will any other brand chain with those specs will. Be very mind full that a 14 in. chain can have any number of links & gages, deviate from your specific specs & they won't work, can be very dangerous as it can throw the chain when you power it.
